The Company

A family owned and operated business, based in Brentwood Essex close to the M25, with family members living in Sussex, Devon and Berkshire, we are able to undertake work throughout **All England**.

Specialising in all aspects of Fire Stopping & concrete cutting

All operative are employed by the company CSCS card holders, have LUL passes, CRB checked, PASMA, First Aid etc.

Throughout the last 6 years we have built a reputation for time keeping and accurate costing, doing repeat work for all our clients.

We are able to undertake Fire Stopping surveys and prepare bills of quantities, visit sites throughout England and in many instances advise as to different options available at cheaper costs

All England are members of FIRAS, which is an accreditation scheme administered by Warrington Fire Research, for installers of passive fire protection systems.

All personnel are FIRAS trained in the application of passive fire protection systems. Workmanship and personnel on site are continually monitored by FIRAS through random site inspections and audit checks of the project quality management systems. By using a FIRAS registered contractor, clients have peace of Mind

To whom it may concern

Meadowside Building Developments employed All England to carry out extensive Fire Stopping works to the Pestana Hotel in London,

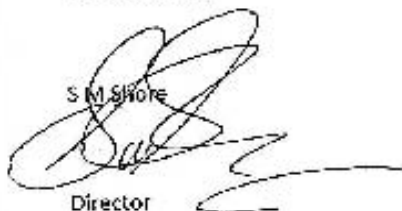

The works were contracted over several months in a Five Star occupied Hotel; the main works were all completed within the specified contract period. Instructed Variations were undertaken quickly, competently and within designated time allowed.

There on site employees were competent and professional, being supported by regular visits from head office personnel.

The works were independently inspected by a third party trade association and conformed to the required specifications.

We would have no hesitation at all in recommending All England for any fire stopping works.

Yours Sincerely

S.M. Shore
Director

To Whom it may concern

We confirm that we are currently working with All England at our Project for Mercedes Benz High Performance Engines at Brixworth.

All England have been contracted to carry out all diamond drilling, stitch drilling, Chasing and cutting in line with BWIC to a value in excess of £100,000.

Response times and professionalism on site have been excellent to date as have submissions of timely and fully substantiated valuations.

We would have no hesitation in recommending All England on the strength of our experience with them to date
